

ETFE Film Solar Panel 0.6W 120mA

Product Description:

- 1). Transparent ETFE film is ideal for use as front sheets thanks to its durability and long lifespan
- 2). Undulating surface
- 3). Waterproof, scratch resistant and UV resistant
- 4). The substrate is double fiberglass PCB
- 5). +/- soldering joints is to easily connect and conformal coated
- 6). Super high efficiency of Sunpower cells are used

Specifications:

Model No.: A-41

Dimensions: 65mm×65mm×2mm

Type of Solar Cell: Sunpower 125×125mm single-crystalline

Quantities of Solar Cell: 10 pieces

Peak Power: 0.6 Watt

Power Tolerance: ±10%

Peak Voltage: 5 Volt

Peak Current: 120 mA

Open Circuit Voltage: 6 Volt

Short Circuit Current: 132 mA

Product Warranty: 3 years

Delivery Time: 20 days

Storage Temperature: -40°C ~ 65°C

Operating Temperature: -40°C ~ 65°C

Test Conditions: 1000watt/m², AM1.5 and 25°C
